& Jenna Webster*

Using state funding to its Soil and Water Conservation District, the County of Westchester is restoring valuable grassland atop the former landfill at Croton Point Park. Larry Weaner Landscape Associates is designing the project, which is intended to curb less desirable, invasive plants in favor of more ecologically friendly native plants to improve wildlife habitat, especially for birds. Come hear how the grassland restoration plan was developed and the timeline for this exciting and innovative project.

Venue: Croton Free Library

171 Cleveland Drive, Croton-on-Hudson, NY 10520

*Co-sponsored by Croton Conservation Advisory Council
and the Croton Free Library*
