Connecting with Youth

For 2017, Saw Mill River Audubon is focused on three outreach efforts for youth: Connect Kids to Parks, our Young Birders series and Schoolyard Birding. Perhaps you have contacts to help SMRA promote these efforts?

Connect Kids to Parks is a grant program from NY State Parks that can fully fund classroom field trips to Rockefeller State Park Preserve for students in grades K to 12 from Title 1 schools or schools with Title 1 targeted assistance. We are excited to be hosting field trips for PS#204 from the Bronx to Rockefeller SPP this spring. There are many eligible Westchester schools as well. Can you help us encourage a local school to connect with this program?

Our Young Birder series offers monthly guided birding experiences for youth age 8 to 16 including one adult family/friend chaperone per youth. More info and online registration at www.sawmillriveraudubon.org/youngbirders

Our Schoolyard Birding outreach offers schools a guided birding experience on their school property along with binoculars for every student to use. Only a few dates remain for this school year. Book now for next year!

Conservation Connections

The Hudson to Housatonic Conservation Initiative (H2H) began as a two-year U.S. Forest Service grant-funded effort. During that period, SMRA led the River Towns Focal Area in a program on birding habitat, native plants, invasive species, and trees and forestry for 25 key landowners. Our team of experts also led a number of woods walks with owners of key forested properties.

H2H has now evolved into the H2H Regional Conservation Partnership (H2HRCP.org), including members like Westchester Land Trust, Friends of the Great Swamp, Yale, and SMRA. This informal group of 37 organizations will continue to “work across CT and NY to promote conservation and sound stewardship for the health of people, plants, and wildlife,” including birds!

Most recent H2HRCP efforts have been focused on defining the new organization’s structure, vision, mission, and goals, through which the partners can tap each others’ strengths and experiences, and synergistically work together on projects and programs.

SMRA Welcome to Spring Program: Sunday, April 2

Saw Mill River Audubon invites you to our annual spring program, **Sunday, April 2, 6:00 pm at the New Castle Community Center.**

Open to all, this is a relaxed and fun evening to mingle with fellow birders and outdoor lovers and celebrate the arrival of spring.

This dinner is one of our favorite events of the year. We hope you will enjoy it with us!

After our brief annual meeting, we will have a presentation from our 2016 Larry Light Youth Scholarship recipient, and two short programs about our recent trips: Southwest Canyons and Minnesota Birding. Our evening concludes with our “Owl Flight” quilt raffle and “2016 Faces & Places,” an overview of our past year’s events. Will you be in the picture?

You are invited! For details and online reservations, visit: [www.sawmillriveraudubon.org/dinner](http://www.sawmillriveraudubon.org/dinner)

Owl Flight Quilt Raffle!

Jean Sparacin has designed and created a beautiful custom quilt to benefit Saw Mill River Audubon. Enter our raffle for a chance to win it. Drawing will be at our April 2nd Spring Program.

More About Saw Mill River Audubon

Larry Light Youth Scholarships

The Larry Light Memorial Scholarship Fund for Youth was established by the Light family and their friends in 1981 and has been strengthened over the years with additional gifts from our members and friends.

Our youth scholarships are for youth age 13 to 17 for a summer camp, class or workshop with an emphasis on the environment. Examples funded in the past include: National Audubon youth birding camps, American Birding Association youth birding camps, an environmental study trip, high school science research trips, New York Department of Environmental Conservation wildlife camps, and Westchester County camps.

The maximum amount awarded for our youth scholarship varies based on funds available. Selection is not based on financial need but on level of interest in the environment demonstrated by school work and extracurricular volunteer activities.
