What Can **YOU** Do To Make A Difference For Raptors In Your Community?

- ✓ **Educate** friends, family and neighbors by spreading the word about the dangers of harmful rodenticides. To start, **visit** www.raptorsarethesolution.org for details and images.
- ✓ **Learn** how non-poison integrated rodent management works, at the above web site, and share this information along with stories of animals impacted by harmful rodenticides.
- ✓ **Take a walk** through your town and record the location and number of rodenticide boxes being used. Check at town halls, schools, parks, business campuses, cemeteries, and more.
- ✓ **Contact** those property managers to learn what methods are being used to control rodents. **Share** information with these property managers about alternatives to harmful rodenticides
- ✓ **Connect** with elected officials on a local, county and state level with a phone call, email or letter, or in person at a town board or council meeting and **speak out** about the dangers of harmful rodenticides and the availability of alternatives.

See reverse side for a graphic to show others about how pesticides can harm other wildlife.
