If you choose Sun 9/8 pickup for your order but your plans change, please call our office ASAP at 914-666-6503 or email us.

(This would be a great help for our seed sale volunteers who are staffing that pickup so they know not to wait for you.)

Bird Seed Types

Sunflower Seed	All forms of sunflower seed attract most birds. The <i>striped</i> has larger seeds. The <i>black oil</i> gives the birds more energy and a smaller seed with a thinner shell. The <i>sunflower coarse chips and hearts</i> leave no hull residue.				
Mixed Seed	As in past years, we are offering a customized <i>SMRA mix</i> . The <i>Economy mix</i> may be preferred by those who want to cut down on the sunflower seed to reduce the amount of hulls under a feeder. The <i>No Mess Mix</i> will leave practically no residue because all hulls are removed. The 2024-2025 seed mix percentages are:				
SMRA Custom Mix	10% striped sunflower 25% black oil sunflower 40% white millet 15% cracked corn 5% safflower 5% whole peanuts	SMRA Economy Mix	10% black oil sunflower 45% white millet 45% cracked corn	No Mess Mix <i>also called Hearty Delight</i>	42% sunflower hearts 15% hulled white millet 35% whole peanuts 3% nyjer thistle 5% fine cracked corn
Thistle (Nyjer)	Small black seed that is a favorite of goldfinches and any visiting northern finches like Pine Siskins or Common Redpolls. A special feeder with small feeding ports or a fine meshed sock is needed.				
Cracked Corn	Attractive for ground feeders like Mourning Doves, Blue Jays, various sparrows. And squirrels.				
Peanuts	A high energy feed appealing to birds and squirrels. A favorite of Tufted Titmouse				
Safflower Seed	Noted for <i>not</i> being attractive to squirrels and starlings. Cardinals and chickadees like safflower.				
Suet	Particularly attracts woodpeckers, but also nuthatches, titmice, and chickadees. For this year's sale, we are offering suet mixed with seed.				

2024 PRICING NOTES: You will see several price reductions compared to last year including reductions in the prices of black oil sunflower, sunflower chips, safflower, and our custom SMRA mixes. We did have small cost increases in peanut hearts and thistle resulting in price increases for those seed types.
